

Easy guide to estimating your ring size

- 1. **Print this Document at 100%**, ensuring any "shrink to fit page" or "scale to fit page" options are not checked.
- 2. You can ensure the document has printed correctly by measuring the 5 cm line below.

- 3. For the most accurate ring size use a ring as close to the style you wish to purchase as possible. Place the ring on the circle above. The ring size will be the circle whereby the inside of the ring is completely filled without the colour overlapping beyond the ring itself. The letter within that circle will be your ring size.

The colour should just fill the inside of the ring and no more.

Would you like more help ...

We want you to be delighted with your purchase. If you would like further advice on ring sizing or need further assistance with your order please do not hesitate to call us on
